

## 4 port HDMI splitter with 3D support

### General information

With this advanced automatic splitter a HDMI source, like a Blu Ray, a DVD player or a satellite receiver, can play on 4 LED, LCD or plasma screens at the same time. The splitter also supports HDCP suited devices. Thanks to the built-in enhancer, both the video and the audio signal keep their quality level from the source to the screen. It also supports the latest 3D movies.
